What is this product?

Type

The Sub-fund is part of MORA FCP fund- The fund is organised in and under the laws of the Grand-Duchy of Luxembourg as a mutual investment fund. This Fund is authorised and supervised in Luxembourg by the CSSF. The Depositary is Banco Inversis S.A., Luxembourg Branch.

Term

The investment horizon is medium term and should be at least 3 years.

Objectives

The Sub-Fund's investment objective is to achieve long-term capital appreciation.

The Sub-Fund is actively managed in accordance with the investment restrictions and the following generic investment policy in aiming to achieve its investment objective. The Benchmark is only used for performance comparison purposes and for calculating the Performance Fee of the Sub-Fund. Under no circumstances and during no period the Sub-Fund's portfolio composition will be dependent on the Benchmark's composition.

The Sub-Fund will invest a minimum of 80% of its net assets in debt securities (governmental or corporate) and money market instruments, and up to 20% of its net assets in global equities, either directly or indirectly. In this sense, the Sub-Fund may achieve also its investment objective indirectly, by investing through UCIs/UCITS up to 10%, including eligible ETFs.

The Sub-Fund can invest up to 30% of its assets in high yield bonds. Securities with a rating lower than B- at the time of investment will not be included in the portfolio.

The Sub-Fund's exposure to securities issued by entities based in emerging markets shall not exceed 30% of its net assets.

The Sub-Fund may invest up to 5% in non-rated bonds.

The Sub-Fund will not invest either in distressed or defaulted securities but in case any of the bonds in the portfolio moves into distressed or defaults, the Investment Manager will monitor the position and sell them when the Investment Manager consider it is a good moment.

The Sub-Fund may invest a maximum of 10% of the Sub-Fund's net assets in Contingent Convertible Bonds (CoCo Bonds).

The Sub-Fund will not invest in Asset Backed Securities (ABS) or Mortgage-Backed Securities (MBS).

The Sub-Fund may hold ancillary liquid assets limited to bank deposits at sight with a maximum of 20% of the net assets of the Sub-Fund in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets provided under article 41(1) of the Law of 2010 or for a period of time strictly necessary in case of unfavorable market conditions.

Intended retail investor

Reserved to professional investors denominated in EUR. The Sub-Fund is intended for investors with a long-term investment horizon. Minimum Initial Investment: 150,000 EUR.

What are the risks and what could I get in return?

Risk Indicator:

The risk indicator assumes you keep the product for 3 years.

You may not be able to sell end your product easily or you may have to sell end at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance-Scenarios:

Recommended holding period: 3 years Example Investment: 10,000 USD		If you exit after 1 year	If you exit after 3 years
Stress scenario	What you might get back after costs	7,380 USD	7,260 USD

What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 USD

Costs over Time	If you exit after 1 year	If you exit after 3 years
Total costs	90 USD	295 USD
Annual cost impact (*)	0.9 %	0.9 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.9 % before costs and 4.0 % after costs.
